NOTE Certified Night Safe IV-types shall exclusively be equipped with high security locks according to EN 1300 which are listed both in the approved technical documentation and in the lock guide ECB•S R01.

The types of the series *Night Safe IV* with a weight of \leq 1,000 kg have to be equipped with an anchoring assembly including material in accordance with the technical documentation.

The certification is only valid when the product is used as staff-operated system and with the deposits documented during the test.

The marking as ECB•S certified product, in compliance with this certificate, is only allowed with an original ECB•S certification mark as proof of conformity according to ISO/IEC 17065.
